When the Armory is thrown open to the public to-morrow night, it is ex-pected that a large crowd will be prespected that a large crowd will be present. For two or three weeks the ladies in charge have been very busy preparing for the bazaar to be called the "War of the Roses," and to be given for the benefit of the Virginia Home for incurables. Everything will be in readiness for the opening to-morrow night, and the entertainment will be one of the most beautiful and recherche events

The object for which the entertainment is given is an altogether laudable one, being an enterprise having as beneleigries the incurable patients of the antire State of Virginia. It is only reaconable for the ladies to expect a lib-

No more interesting feature than the drill of the two classes of pretty girls, dresed up in white and red, to remind one of the houses of York and Lancaster, could have been hit upon. Heides this, there will be a mock marriage, in which two little children will be the principals, and a' delightful entertainment will be given every night.

BEAUTIFUL INTERIOR. interior of the Armory presents

The interior of the Armory presents a beautiful appearance. The decorations are both elaborate and tasteful, streamers, flags, banners: shields, and the like blending in the most attractive effects. There are nine large booths besides the fortune-tellers' tents, the restaurant, and various other attractive places. As you enter, the booth of the Christian deromination presents a fine appearance on the right. It is prettily decorated in white and dark-green. Next to that is the Baptist booth, in decorations of white and Nile-green, and then the Episcopal booth, in white. The Methodist booth, in red, is quite a pretty one, as is also the Presbyterian booth, which is made in shape of a ship, with rigging and all. In the centre of the spachus hail, at the castern end, is a large booth, which is decorated elaborately in red and other colors. To the left of it is the Catholic booth, which is similar to that of the Presbyterians, on the corresponding side. Next to that is the Willing Workers' booth, with tasteful decorations, and then the fortune-tellers' tents.

The Times' booth is one of the pretiest in the room, occupying a conspicuous place in the centre of the room and beneath a huge star, where a number of electric lights give the interior a beautiful effect. The Times is the only newspaper with a booth at the bazzar, and nothing has been left undone to make it one of the most attractive of all in the room. The booth is beautifully decorated, and will be in pharse of a number of the most popular young ladies in the city. It will be a kind of gravitation-point for every one in the Armory. The restaurant will furnish meals day and night. On Tuesday and Friday and injent. On Tuesday and Friday and injent. On Tuesday and Friday and injent. On Tuesday and Friday and white. The First Big Foot-Ball Game of the Season-V. M. I. Defeats the Washington and Lee-Other Games.

PRINCETON, N. J., Nov. 2 .- The day for the great contest between Harvard and Princeton opened with a gray, low-ering sky, which threatened to deluge the field with torrents of rain. In spite of the unfavorable conditions, the seats surrounding the gridiron contained nearly 8,990 spectators when the Princeton eleven came on the field, at 2.03 o'clock P. M. o'clock P. M.

o'clock P. M.

The interval before play began was occupied by the cheering of the supporters of the two teams, who came out to cheer and sing until their voices should give way, if necessary. Banners and flags of orange and black, or of crimson, were waying on all sides.

Alumni, as well as the undergraduates, were on hand, and proved that they had not forgotten their college cheers. Large numbers of pretty girls, carrying streamers of the colors of their favorite college, braved the inclement weather to see the great strug-

The weather finally turned out better than had been feared, and although it drizzled continuously throughout the game, it did not materially affect the game or spectators, except that a great deal of slipping on the part of players can be laid to the soggy condition of the ground.

Almost from the moment the ball was amost from the moment the ball was put in play, it was evident that neither team was going to have a walk-over. All through the first half, Harvard, perhaps, had a little the better of it, although neither side was able to score. Her line was much weaker than Princeton's, but she made up this defect in the work of her backs. Charlie Prethe work of her backs. work for Harvard, but their efforts were of little avail against Princeton's

line.

Baird's improvement, during the second half was simply wonderful, making a number of punts of from fity to sixty yards. His work in the game will put him among the best full-backs of the country. It was decidedly a kicking game, the oval flying from one end of the field to the other. Fairchild punted but little for Harvard, leaving sill of that work for C. Brewer. Both teams made their best gains by mass play directed against tackle or guard. In line-bucking, Armstrong proved himself.

that work for C. Brewer. Both teams made their best gains by mass play directed against tackle or guard. In line-bucking, Armstrong proved himself the equal of any on the field.

Very little end-running was attempted by each side, and when it was tried the interference was nipped in the bud by the work of the ends. Princeton's line out-played Harvard's at almost every point, with the exception of Hearn at left end. Cochran played a brilliant game at the other end, being on hand wherever he was needed.

It is difficult to pick any flaws in the Harvards' work, but their line lacked the alertness and snap which cannot be discensed with in a winning team. Captain Lea broke his collarbone at about the middle of the second half, and on this point Cochrane captained the Tigers, and showed himself very capable in this position. He handled his men well, and only once did he order a clay which would have been better omitted.

Neither side scored in the first half, but eight minutes after the second half began. Princeton carried the ball across Harvard's goal-line for a touch-down. Five minutes later Harvard returned the compliment. Both falled to kick the goal. Score 4 to 4. Eight minutes more gave Princeton another touch-down, no goal, and in the remaining four minutes Princeton added another touch-down, no goal.

Final score—Princeton, 12; Harvard, 4.

In sporting and athletic circles here the all-absorbing topic is the game of football to be played on Thanksgiving-Day at Lynchburg between the cadet team of the Virginia Military Institute, of this place, and the cadet team of the Virginia Agricultural and Mechanical College, of Blacksburg. Both the teams are strong, and will play a fine game.

One of the most attractive features of the Jefferson Hotel is the statue of Thomas Jefferson. It is the work of Sculptor E. V. Valentine. Some of the farmers seem to think that the rain, that now seems to be general in this section of the Valley, will be followed by a warm speil, that will last close on to Christmas, and if their predictions fall true, they will be enabled to put in very much of their usual fall fallowing, and to get the crop fallowed in before the freeze, and have it up before the hard weather sets in. However, if there is not a warm spell of several weeks after the rain, the farmers will not be enabled to complete their fallowing and sowing the wheat, and, as a result, the crop in this section will be a very short one in point of acreage.

The drought just broken set in about The drought just broken set in about the middle of August, and has been one of the longest and most remarkable that the oldest inhabitant in this part of the Valley can recall. No rain to do any good has fallen for about ten weeks, and as a result the pasturage long weeks ago was burned up and the farmers have been feeding their stock for some time. The loss to the farmers by the drought cannot be estimated in dollars and cents.

A light snow and sleet fell in this county varly Thursday morning, but lasted only for a short time, and did not do any damage to speak of.

VA. AGRICULTURAL COLLEGE. The Foot-Ball Team Working Like Trojans-The Maury Society.

BLACKSBURG, VA., Nov. 2.—Special.—Since the Washington and Lee game the team of '95 has not been idle; in fact, every man has worked like a Trojan, nighting to defend his position from a "scrub." And well may they work, for every evening's practice brings some new man to the front who is bent on obtaining the key that will admit him to the final game of the season. Among those who have made decided progress during the last few days are Rousie at left guard, Trainham at right guard, and Cox at left tackle. All three are very promising players, and will at least get on the team as substitutes.

On Saturday, the 2d, the team will play St. Albans the second time this season. The first game, on the 12th of October, resulted in a score of 12 to 9 in favor of the V. A. M. C., and the students are disposed to think that the score will be much larger this time.

lege, in Roanoke city. Both sides seem to be confident of winning, Roanoke College having held the University of Virginia down to 14 points, while the V. A. M. C. was beaten by a score of 35 to 9. But the Blacksburg boys won from St. Albans easily by the score given above, while Roanoke was defeated by the same team by a score of 4 to 0. The two schools have cranks comparing these scores, but it is a fact that liftle knowledge can be had of a team by comparative scores.

The general impression is that Roanoke will find a different team on the 9th from what she is picturing, and that playing ball will be work indead of play on that occasion.

As the 5th of November approaches

As the 5th of November approaches more and more interest is manifested in the coming election. Mr. Charles B. Mc-Donald, the Democratic candidate for the House of Delegates in this (Montgomery) county, is an alumnus of the Virginia Agricultural and Mechanical College, and a man of unquestionable character and business qualifications. He has many friends throughout the country, and it is the opinion of every one that he will be elected, although, probably, not by a large majority.

Dr. J. M. McBryde has returned home from Atfanta after a stay of two weeks. At a meeting of the Maury Literary Society held Saturday night, the following ticket was elected for public debate, to take place in December: President, Lesile D.
